

Revised Date of Implementing Export Carrier Haulage from ICD's w.e.f., 1st Oct 2026

Customer Advisory # MUM/2026-2027/487

Date: 18th September 2026

Dear Valued Customer,

Further to the previous announcement on Carrier Haulage, the revised date of implementing Export Carrier Haul services is revised to 1st Oct 2026.

You may refer to below link for checking the applicable Export Rail haulage tariff as per equipment Type, size and weight.

Link: [Export Haulage](#)

Carrier Haulage

Please note the following changes for your information and guidance regarding Export Carrier Haulage:

- If the **empty pick-up and laden container handover point is an ICD**, and the **Place of Receipt (POR) in the ONE Bill of Lading is also the ICD location**, the Ocean Freight will be subject to **ONE Export Carrier Haulage charges**, along with other applicable local charges as per the ONE tariff.
- **Reefer (RF) containers** can be accepted under Carrier Haulage from the listed facilities where **Export Carrier Haulage rates have already been published**.

Merchant Haulage

For customers who opt for **Shipper PDA / Merchant Haulage**, please note the following:

- The **Place of Receipt (POR)** in the Bill of Lading will no longer reflect the ICD location. Instead, the **Place Of Receipt (POR)** will be the respective Port of Loading, as haulage will be arranged by the customer.
- The applicable rate will be based on the **date the container is handed over at the Port of Loading (POL)**.
- The customer will be responsible for **picking up the empty container and handing over the laden container at Port** within the standard Export Free Time. Any delay beyond the applicable free time will be subject to **Detention/Ground Rent charges** as per the published tariff below.
- Terminal Handling Charge under Merchant Haulage will be applicable as per tariff
